IES CRITICAL PROCEDURES COURSE

Dallas and Houston

Join us for the IES Critical Procedures Course, a comprehensive, hands-on course led and designed by Elizabeth Fagan, MD, FAEMS, FACEP, Director of Education and EMS at IES, to ensure that IES Physicians and APPs maintain proficiencies in high-risk/low-frequency critical procedures.

Three identical session times will be offered on different dates in Dallas and Houston to allow clinicians to select the most convenient time to attend.

- Morning Session: 8:00am – 12:00pm
- Mid-day Session: 10:00am - 2:00 pm
- Afternoon Session: 12:30pm – 4:30pm

LEARNING OBJECTIVES

- Demonstrate the importance of incorporating a checklist in central line insertion procedures.
- Perform advanced airway procedures with the use of equipment available in your routine working environment.
- Justify the value and utilization of ultrasound for peripheral IV access.
- Perform all aspects of high-risk procedures encountered infrequently.

EDUCATION ATTENDANCE FOR QSP

To obtain education attendance credit for QSP, Physicians and APPs must complete a minimum of 4-hours of attendance at an IES-sponsored education event per year.

***Education attendance for QSP credit applies to selected BEST locations. Contact your site practice administrator to confirm the status of your site.*
